AMENDMENTS

Please amend the above-identified reissue patent application as follows.

In the Specification:

Replace the paragraph at Col. 1, lines 9-23, with the following:

Conventional acoustic wave imaging systems use a one dimensional (1-D) array of electro-acoustic transducers, for example, a 1 X 100 array, and have been configured to achieve linear, curved linear and sector scanning. Coherence in the transmission and receipt of acoustic signals is achieved by the utilization of delay devices in the signal
